Impact on net cash due to....

- Changing profile of business
 - Increased level of support services activities
 - c. 90% of customers now use target cost based, cost reimbursable contracts
 - Reduction in advance payments
- Delayed contract completion
- Wider industry trends:
 - Project bank accounts
 - Supplier payment charters

Increased working capital requirements will mean net cash balance likely to continue lower

Transition to target cost based contracts

Fixed price, lump sum contracts

- Suitable for well defined low complexity projects, eg PFI schools, offices
- Higher risk, can lead to confrontation

June '13

£2.9bn

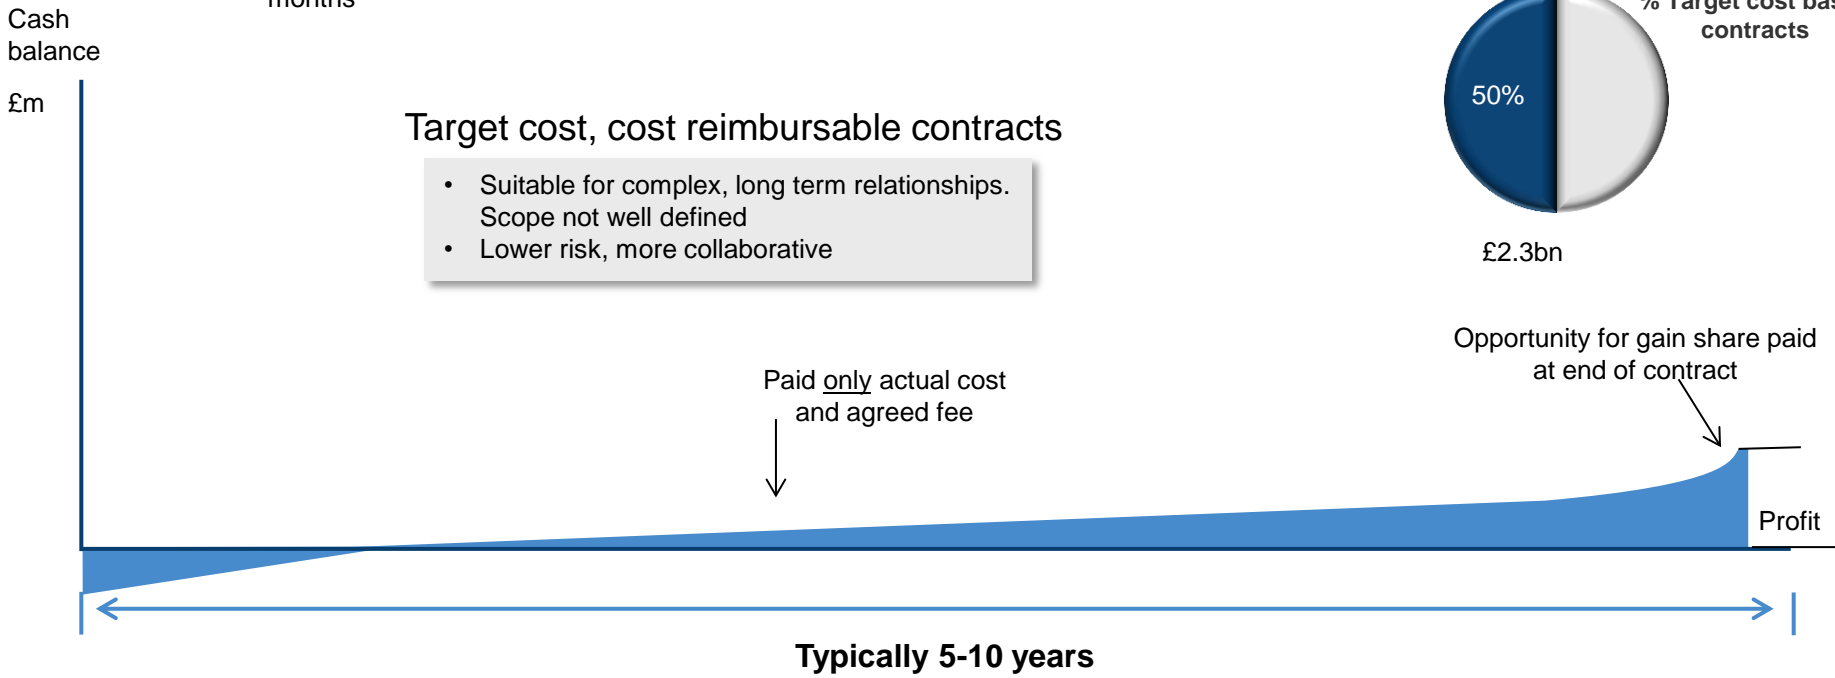

June '11

£2.3bn

Target cost, cost reimbursable contracts

- Suitable for complex, long term relationships. Scope not well defined
- Lower risk, more collaborative

Increased banking and bonding facilities

- > Banking and bonding facilities increased to £495m
- > Including increase in debt facility from £45m to £95m
- > Extended maturity date to 30 June 2017

Increased dividend

- > 7% increase in interim dividend to 3.75p per share
- > Sixth successive year of increase
- > Payment on 25 October 2013 to shareholders on the register as at 20 September 2013
- > Option to take shares in lieu
