

DRUGS AND ALCOHOL POLICY

Costain recognises the importance of maintaining a healthy and productive workplace through the highest standards of safety and employment practice, and the reduction of risk in all its areas of activity. This policy is a declaration of the Boards' intent to provide a safe and healthy working environment free from the inappropriate use of drugs and alcohol in all Costain undertakings.

Costain recognises that the use of illegal drugs, misuse of legal drugs (including solvents) and the abuse of alcohol can impair job performance at work and can be a serious threat to safety, health, productivity and the environment.

All Costain staff, sub-contractors, staff and labour agencies, consultants and any of their employees are required to comply with this policy when providing services at Costain locations or on Costain business. Costain will ensure that they are made aware of this policy as part of its induction and communication procedures.

Costain is committed to providing support to any employee who voluntarily declares a drug, alcohol and substance related addiction or habit, to ensure they are provided with the appropriate advice and guidance.

No member of the Costain staff, workforce or subcontractors, labour agencies, consultants and any of their employees shall:

- Report for duty under the influence of illegal drugs, or the misuse of legal drugs (including solvents) or alcohol.
- Consume illegal drugs, or misuse legal drugs (including solvents) or alcohol whilst on duty.
- Possess or sell prohibited drugs.

Costain reserves the right to test 'with cause' if any of the above characteristics are suspected. In addition, Costain will, subject to any overriding customer restrictions, carry out:

- mandatory drugs and alcohol testing at induction, and
- random testing

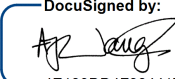

at any of its projects, sites and offices.

All those engaged to work with Costain on a site with specific customer requirements are expected to comply fully with the provisions and working practices on that site including any additional customer specific requirements, e.g., Network Rail.

All Costain activities will be carried out with proper regard for this policy and associated procedures.

Any worker who refuses to undertake a test or receives a positive test result will be considered to be in breach of this Policy and will be excluded from their place of work. Any person so excluded may be refused access to any Costain project/site/office in the future.

Any Costain employee found to be in breach of this policy will be liable to disciplinary action which may ultimately result in dismissal. Any employee engaged by a subcontractor or through agencies or consultancies found to be in breach of this Policy will be subject to parent company disciplinary procedures following their exclusion from the Costain project/site/office.
